

1. Place the base on the hardware feet, align it with the corresponding holes, put in the hexagon socket screws and gasket, and tighten the screws to 1/2 of the installation length. (Please be careful not to fully tighten the screws)

2. Place the frame on the hardware feet. Since the screws at the bottom has not tightened, you can move the frame appropriately, and adjust the screw holes on the upper end to make sure they are all aligned, then put in the screws and gasket, and tighten the screws to the installation 1/2 of the length. After all the screws are inserted, use wrench to tighten the screws one by one.

Installation instruction

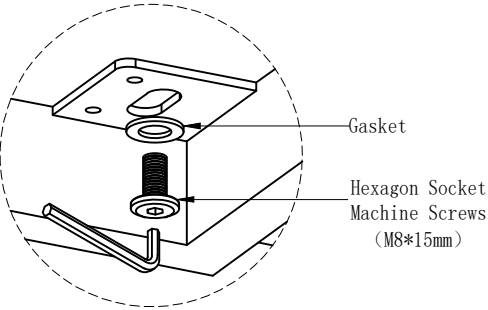

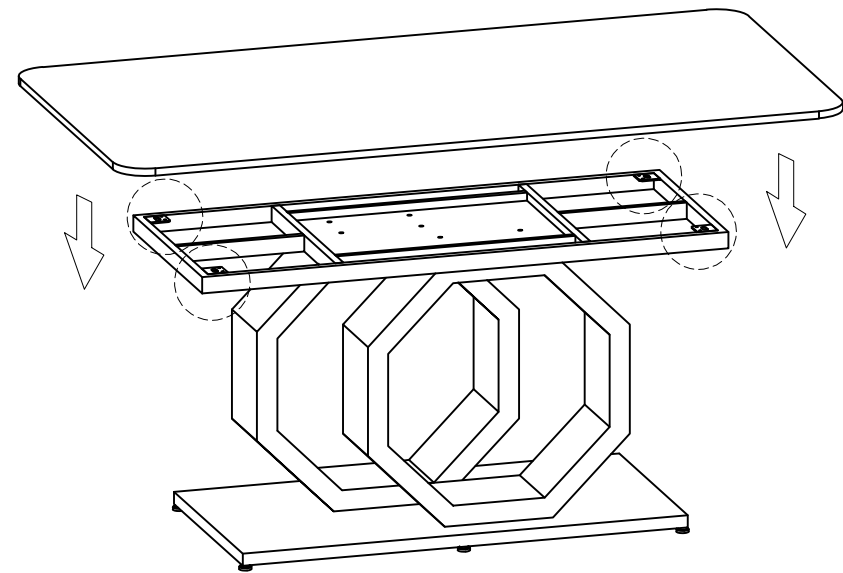

DT046AW14/16/18/20 Installation

The number of people needed for installation: 2

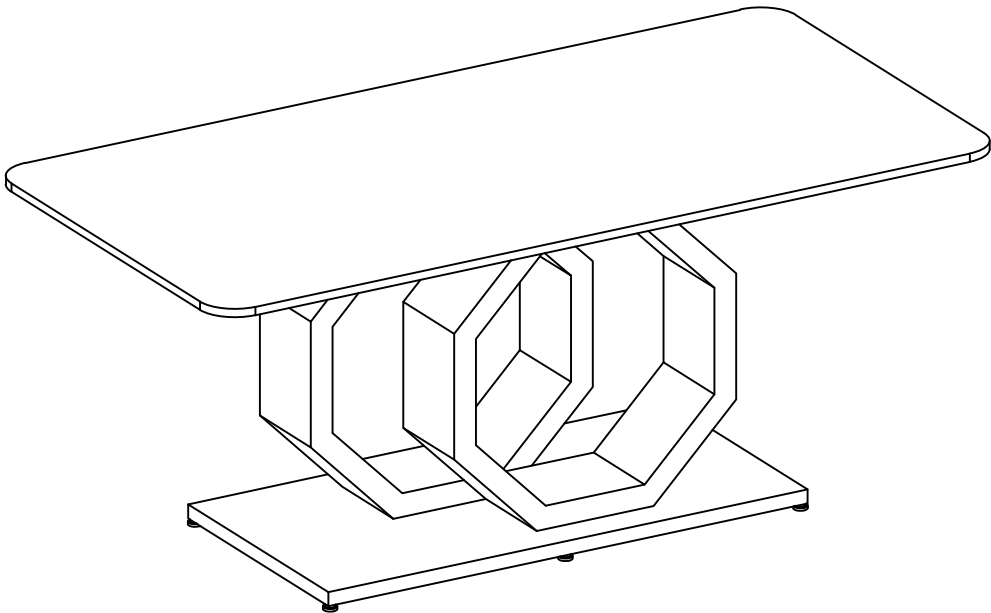

- ① Please read the manual carefully before installing this product. And strictly follow the installation process
